## Special features

It's design is unique and will stand out from the crowd, and it is designed for type lovers. Rockstar designers who look at every detail and want to create something special.

The unique feature of the font, the signature crooked 'slashes' can be customized to suit your needs. You can switch the angle by setting in uppercase or lowercase. That way you can customise the way you build your typography.

## About Slash

Slash is a sans serif display font that includes all caps, numbers, special characters and ligatures. It is made for logo's, posters, magazines and other places that need a bold typeface.

It is like the name suggests rock & roll to the fullest. It likes to party hard and it might get loud when it's in the room. However for all its toughness it is not blunt, a subtle round corner makes it easy on the eye and a joy to use.
